Design an artful and immersive listening room

WRITTEN BY CHLOE GREEN

PHOTO LOUISA & FYODOR | DESIGN BY DATE INTERIORS

Find a melodic escape with a personal listening room. Whether seeking a vinyl sanctuary or a place to strum your guitar, consider these essentials. Complement acoustics with rugs, plush furniture and artwork. Harmonize room size and speaker proportions. For optimal sound, opt for an equilateral triangle setup between the speakers and seating. Then, give speakers breathing space by pulling them slightly away from walls. **B**
